WHY SPAY OR NEUTER MY PET?

Many people hesitate to spay or neuter their pets, because:

- they do not understand how easily the urge to mate will overcome any fence or closed door;
- they think puppies and kittens are fun to have around the house;
- they think there is no harm done by having a litter of kittens or puppies;
- they think their children should experience the miracle of birth by watching their pets give birth.

The **TRUTH** is that:

- It is almost impossible to prevent a female dog or cat in heat from escaping from a house or yard, or keep a male away from her. Just a brief second of inattention, or a gate without a firm latch is all it takes.
- Neutered male dogs and cats are much less likely to be lost or injured in fights.

- A litter of puppies or kittens demands a lot of time and care, and rapidly turns into 6 or more expensive dogs or cats who need homes, food, and vaccinations.
- One unspayed female cat, her mate, and all of their offspring, producing 2 litters per year with less than 3 surviving kittens per litter, can result in over 11,000 kittens in just 5 years.
- Thousands of adult dogs and cats are abandoned or euthanized in shelters.

The Hart County Humane Society is offering financially subsidized spay and neuter certificates to Hart and Franklin County residents. By spaying and/or neutering your cats and dogs, you will be helping support our mission to end the need to euthanize adoptable pets at Northeast Georgia Animal Shelter.

If you would like to donate to this program instead, please visit our website at www.harthumane.org. Donations to this lifesaving program are desperately needed and greatly appreciated.
